

Unification of the Eleven Boson Interactions Based on Rotations of Interactions : New $Su(3) \times U(64)$ Symmetry and Interactions of Interactions, Electroweak Theory as an Interaction Rotation, Gravity: Earth Scale, Galactic Scale, Intergalactic Scale, Proton

Filesize: 1.44 MB

Reviews

The ebook is simple in read easier to recognize. It is one of the most awesome book we have read through. I am happy to explain how this is basically the finest pdf we have read inside my very own lifestyle and may be he finest publication for actually.
(Jaiden Turcotte DDS)

UNIFICATION OF THE ELEVEN BOSON INTERACTIONS BASED ON ROTATIONS OF INTERACTIONS : NEW $SU(3)XU(64)$ SYMMETRY AND INTERACTIONS OF INTERACTIONS, ELECTROWEAK THEORY AS AN INTERACTION ROTATION, GRAVITY: EARTH SCALE, GALACTIC SCALE, INTERGALACTIC SCALE, PROTON

Pingree-Hill Publishing, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. This book is a supplement to Unification of the Seven Boson Interactions based on the Riemann-Christoffel Curvature Tensor . (I). Together these works provide a unified picture of the boson sector of The Theory of Everything: vector bosons, gravitation and Higgs bosons. The boson sector unification is based on the Riemann-Christoffel tensor, which must include all interactions in its description of our curved space-time. The boson lagrangian part of The Theory of Everything is constructed from the Riemann-Christoffel tensor in a manner similar to the construction of the Theory of Gravity. In I we constructed a unified theory for the seven necessarily known interactions required by experimental data. In this book we add four interactions that would also seem to be needed: a gravitational vector spinor interaction, an $SU(2)$ Dark Weak interaction a $U(1)$ Dark Weak interaction, and a unifying interaction that we call the Omega-Interaction. We attribute Dark Weak interactions to Dark Matter as a natural extension of the set of particle interactions. We do not introduce a Dark Strong interaction due to the cosmological data that shows Dark Matter to be diffused in lumps throughout the universe and apparently not aggregated into stars and planets. This difference suggests that a Dark nuclear force and consequently a Dark Strong interaction does not exist. After assembling the eleven forces in the Riemann-Christoffel tensor, we note that a (broken) $SU(3)$ by $U(64)$ symmetry is manifest and we develop the consequences of this symmetry. We take this symmetry to be a local Yang-Mills symmetry and apply the Faddeev-Popov Mechanism to generate ghost interactions. Thus we go beyond the Standard Model in two ways: interactions between interactions, and ghost interactions between interactions. We conclude...
