Createspace, United States, 2015. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.The spirit of err thrives on the basis that in order for evil to exist throughout all of creation, then entities and institutions have to be well placed philosophically, economically and in synergy with each other to perpetuate its evil objectives. For example, pharmaceutical companies cannot afford to actually cure sickness and diseases (most of which are actually preventable). The drug companies therefore are the workers of iniquity . In this work Ben Ammi uncovers the deep deception that has clouded mankind s perception and understanding of what we consider as evil. After reading this work, no reader will be left with doubt or ignorance of the evil systems that have worked and are working still to enhance the demise of the human race. The Mechanics of Evil Reasoning has been taken from Ben Ammi s greater work God and the Law of Relativity which sets forth the blueprint for survival into the 21st Century.
