I am fully aware of the boldness of my under taking to write upon a subject of so vast importance, and, withal, one whose practical side has so long evaded the pursuit of the thousands who have tried to capture and bring it forth to the light of day. I apprehend that the first thought of the reader may. Be to consign the book to the fate of the mnemonical systems preceding, whose name is legion, but are generally worse than useless. But trusting to the forbearance of the reader, where he does not find the subject put with sufficient perspicuity and fullness to suit him, I send it forth with a confidence born of personal verification.
