AN INTRODUCTION TO CELESTIAL MECHANICS (PAPERBACK)

Dover Publications Inc., United States, 1984. Paperback. Condition: New. New edition. Language: English . Brand New Book. An unrivaled text in the field of celestial mechanics, Moulton's theoretical work on the prediction and interpretation of celestial phenomena has not been superseded. By providing a general account of all parts of celestial mechanics without an over-full treatment of any single aspect, by stating all the problems in advance, and, where the transformations are long, giving an outline of the steps...
