Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.These Books are to highlight the importance of ideas for new programs, new plans, new participation and new possibilities. Suffice it to say that we need a lot to change in order for 2.3 million residents of prisons to be able to find the motivation necessary to participate in changing their lives. Little will change when the minds lack stimulation. On almost every issue, robust listening is full with the speaker s thought that someone else needs to do something different. I can tell you from my experience in life that the most important step is to try. I have read how scary prison can be and how hard it is to deal with all the inconvenience and stress. I have freedom to express views that might help somewhat. If you like the ideas I share, then consider developing the ideas further to spotlight what you can do. If you do not feel right with my suggestions, you can stay with what you know and develop your internal skills. --- Other Prison Books - 1.
